PROFESSIONAL SUMMARY

B.Tech Computer Science student (CGPA 9.4) and aspiring Cybersecurity & networking professional with a Python Full Stack Developer internship at CodeDais Software. Experienced in building Django web applications with authentication, role-based access, CRUD operations and database integration, including a College Management System and a Hospital Management System. Eager to build a career in cybersecurity and networking, with strong problem-solving, teamwork and technical presentation skills. Seeking a Cybersecurity and Networking Intern role to apply technical knowledge and keep learning in a real-world environment.

EDUCATION

DRIEMS University, Tangi Aug 2024 – July 2027
B.Tech, Computer Science Engineering — CGPA: 9.4 | Odisha, India

Bhubananda Orissa School of Engineering, Cuttack Sep 2021 – July 2024
Diploma — Percentage: 84.4% | Odisha, India

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, HTML, CSS, PHP

Frameworks & Libraries: Django, REST APIs, React.js, Next.js, Node.js, Express.js, Pandas, NumPy

Developer Tools: Git, GitHub, VS Code, Android Studio

AI Tools: OpenAI, ChatGPT, Claude, Grok, Gemini

Core CS: Data Structures & Algorithms, Operating Systems, DBMS, Object-Oriented Programming,cybersecurity fundamentals,firewall vpn,Technical Documnetation,osi and tcp, Routing

EXPERIENCE

Python Full Stack Developer Intern — CodeDais Software Private Limited June 2026 – July 2026
Bhubaneswar, India

- Built responsive web applications with Django, covering both frontend and backend development.
- Created dynamic web pages, integrated databases, implemented authentication and performed CRUD operations.
- Collaborated with the development team to learn the software development lifecycle and industry best practices.

PROJECTS

College Management System May 2026
Django, Python, HTML, CSS, JavaScript, OpenAI

- Developed a full-stack platform to automate college administration: student records, faculty details, courses, attendance, examination results and notices.
- Provided secure role-based access for different users, reducing paperwork and improving data accuracy; responsive across desktop and mobile.
- Tech & skills: Django MVT, ORM, authentication, role-based access, CRUD, REST-style views, OpenAI API, responsive UI, Git/GitHub.

Hospital Management System July 2026
Python, Django, MySQL, HTML, CSS, AI

- Designed and built a system to digitize hospital operations: patient records, doctor information, appointments, billing, medical history and staff management.
- Reduced manual documentation and improved data security with an organized workflow and an intuitive, responsive interface.
- Tech & skills: Django backend, MySQL database design, CRUD, appointment & billing workflows, data security, responsive UI.

CERTIFICATIONS

- cybersecurity certified-cisco
- Python Full Stack Certification — CodeDais Software Pvt. Ltd.
- Python Certification — Central Tool Room Training Centre

EXTRACURRICULAR ACTIVITIES

DRIEMS Internal Hackathon — Cuttack 13 Sept 2025
Security Testing

- Collaborated with a team to design, develop, test and present a software solution within a limited timeframe; received a Participation Certificate.
- Skills demonstrated: Python, teamwork, problem solving, time management, debugging, technical presentation.
